

Jewellery / Wednesday, 13th May 2026 / Lot 662

### LOT 662

A gold and diamond cluster ring, mounted with seven principal old cut cushion shaped diamonds at the centre, further set with diamond points at intervals and diamond set single stone shoulders, detailed '18ct', weight 2.4g, ring size approx M1/2.

Estimate: £250 - £350

### Condition Report

The ring is generally in good condition.

The shank has some signs of wear, as to the sides of the mount, the ring has likely been worn against another in the past.

Total diamond weight approx 0.90ct-1.10ct

The ring is detailed '18ct', which would indicate 18ct gold.

Suggested age - late Victorian/early 20th century
