LOT 2164

A small 19th century oak campaign chest of two short and three long drawers with recessed brass mounts and handles, height 88cm, width 76cm, depth 40cm (faults).

Estimate: £300 - £500

Condition Report

2164. As can be seen from the photos, both parts have had gapping of the timbers throughout, which have been clamped together with later, probably 19th century, recessed iron cleats.

Otherwise there are other small repairs, knocks, scuffs and scratches throughout.

The drawers all have their original handles and locks.

There is a rear top section of one drawer missing (about 5cm strip), otherwise drawers are ok.

The base is lacking its original feet and has later blocks attached to the corners, with one of these missing.

One key escutcheon missing, and some screws loose and missing to brass mounts.
