LOT 2597

A pair of large early 20th century black painted cast metal garden models of recumbent lions, height 55cm, length 110cm (faults).

Estimate: £200 - £400

Condition Report

2597. A few minor losses to bottom edges, but the majority of the larger components are there. One of the lions has a crack running down its spine and around the rear edge. Paint flaking and some other areas of cracking to metal. We think the metal is zinc.
