LOT 570

A gold, emerald and diamond seven stone half hoop ring, mounted with four circular cut emeralds alternating with three circular cut diamonds, detailed '14K', weight 2.3g, ring size approx P.

Estimate: £120 - £160

Condition Report

The emeralds have been fairly well matched for colour, one is slightly more opaque in appearance than the others. They are typically heavily included stones. One has a chip to the girdle, only noticeable when viewed under a loupe.

The diamonds are fairly included stones, clarity approx. SI, colour J/K.

The diamonds sparkle with their high lustre, the emeralds are naturally slightly more subdued in appearance.

The shape of the ring is slightly oval which makes sizing difficult. The ring is likely larger than size P, measuring limited by the use of a ring pole.

Claws look to be in good condition.

The ring has some typical light scratching to the gold overall.
