

Jewellery / Wednesday, 8th July 2026 / Lot 575

LOT 575

A silver, blister pearl and ruby circular pendant, the suspension loop detailed '925', weight 11.2g, length 3.5cm, and two Victorian style hinged bangles, each with scroll engraved and beaded decoration, both unmarked.

Estimate: £100 - £150

Condition Report

The decoration is crisp on both bangles.

The larger of the bangles has a one or two very small dents to the back section, but these are not hugely significant.

The smaller of the bangles is slightly misshaped, when opened, the back section does not sit in line with the front and requires a bit of applied pressure to close the bangle again.

There is a small dent to the edge of one of the roundels at the front, which is fairly obviously, once noticed, and another very small dent to the back section.

Inside widths of each bangle (from hinge to clasp) - 5.6cm and 5.2cm.

The blister pearl pendant - in generally good condition, the rubies are heavily included and treated stones. The blister pearl has some imperfections and is glued to a mother-of-pearl backing.
