

Jewellery / Wednesday, 8th July 2026 / Lot 617

LOT 617

A gold mounted, emerald and diamond ring, designed as a horseshoe, mounted with rose cut diamonds and variously cut emeralds, unmarked, weight 3.5g, ring size approx N1/2.

Estimate: £200 - £300

Condition Report

Emeralds are heavily included. One emerald is badly damaged and chipped and a section looks to be only held in place due to the claw.

The diamonds are fairly included stones, one or two are chipped.

There looks to have been a repair to the pins holding the horseshoe to the shank, with evidence of solder.

Shank is unmarked and with minimal wear.
