LOT 650

A platinum, ruby and diamond oval ring in an Art Deco inspired design, collet set with the oval cut ruby at the centre, detailed 'Pt950', weight 4.5g, ruby weight approx 0.83ct, ring size approx M1/2.

Estimate: £1,500 - £1,800

Condition Report

The ruby is being sold as natural.

Under a microscope there are no obvious signs of it being synthetic, having undergone heat treatment or filling. There are a number of natural inclusions, as to be expected, with some larger areas of internal cracking towards the pavilion.

Some abrasion to the ruby's facet edges, with one or two small scratches, but all largely only noticeable when viewed under a 10x loupe..

Please note: we are limited by our equipment and the ruby has not been sent to a gem laboratory to confirm our opinions.

Ruby weight 0.83ct and total diamond weight approx 0.71ct, as stamped within the band.

Two principal diamonds are approx 0.10-0.15ct and as the other diamonds are small, the weight stated would appear to be the correct total.

Small inclusions to some of the stones. Diamonds are bright and sparkly.

Suggested age - the ring is modern, produced in the last decade.

Overall condition, as new.
