LOT 669

An 18ct white gold, blue apatite and diamond ring, claw set with the oval cut blue apatite between circular cut diamond eight stone shoulders, detailed 'ILIANA', weight 5.5g, ring size approx O.

Estimate: £500 - £700

Condition Report

Please note: description change, the blue gemstone was previously believed to be a Paraiba tourmaline but has subsequently tested as an apatite.

The apatite has some general abrasion to facet edges, with a chip to the girdle and some nibbling to the table facet edge.

Dimensions of apatite: 9mm x 7mm x 4.3mm

Ring is otherwise in fairly good condition, with some typical light scratching to the metal. The rhodium plating has rubbed off in some places.
