

Furniture / Thursday, 6th August 2026 / Lot 2194

LOT 2194

A closely matched harlequin set of fourteen Regency mahogany bar back dining chairs, all with thinly crossbanded bar backs and turned legs, comprising two pairs of carvers, height 82cm, width 55cm, and ten standards.

Estimate: £200 - £400

Condition Report

2194. The condition of the chairs is fairly consistent throughout, with restoration to various top rail joints, leg joints and seat rails. Most have a scattering of old woodworm holes to the seat rails, as well as some replaced corner supports.

One of the chairs has had re-spliced replacement legs and another has had a repair to the bar back.

Otherwise the chairs are reasonably stable and look reasonably clean.

The seats are useable, but may need re-upholstering.
