### Condition Report

Dish - 2 approx 1cm long vertical firing cracks to the rim, one of which is brown stained. Rim edge has at least 4 small unglazed spots around the top and a larger unglazed length approx 2cm long across the top of one corner. Base interior with significant surface scratches. The enamels and gilding are generally not too bad apart from noticeable wear to one chrysanthemum head and one feathery leaf.

Bowl - section of rim approx 10cm long by 2cm wide broken away and riveted back into position. Small chip and firing crack to footrim which has a lot of glazed over roughness/nibbling to its circumference - a manufacturing issue. Some crazing and surface scratches to glaze of base interior. Enamels and gilding overall in good order, minor typical wear commensurate with age and handling.
