

LOT 664

A gold and varicoloured gemstone set bracelet, mounted with a row of nine variously cut coloured gemstones, including garnet, amethyst and zircon, unmarked, weight 3.6g, length 15.5cm.

Estimate: £80 - £120

Condition Report

Some wear to a few of the claws supporting individual stones, particularly to the central blue zircon.
Clasp works and clicks into place.
Some wear, scratching and denting to the gold links, as they are quite delicate.
One pink stone could possibly be a replacement, as there are gaps around the stone, it doesn't fit snuggly within its setting and one set of claws isn't supporting it as a result.
One or two stones have some very minor abrasion, but are largely in good condition.
