

LOT 2501

A monumental carved marble architectural column fragment, probably 18th century, the substantial section with overall deep vertical fluting, height 105cm, diameter 44cm.

Estimate: £800 - £1,200

Condition Report

2501. Clearly fragmented condition, with repair across top section and overall surface degradation and loss. Some cracks to the surface, chips to edge of fluting and loss around base section. Diagonal repair running through side.
