A pair of 19th century French cast ormolu candlesticks, each body inset with three Sèvres style porcelain portrait plaques, raised on triform bases, height 22cm, together with a cast brass two-division letter rack, width 15cm.

Condition Report

2517. All in good order, however the pair of candlesticks are both leaning to one side, so probably need their attachments re-adjusted at the base.
The letter rack has two later screws used on the underside.
